#### **Course Outcomes**

**At the completion of this course, the student should be able to:**

- Perform select basic skills according to guidelines to meet client needs in a long-term care health and rehabilitation settings
- Plan for meeting the basic human needs of a client with minor alterations in safety, comfort, nutrition, and elimination
- Practice appropriate verbal and nonverbal communication techniques with clients and nursing team
- Practice within the profession's ethical and legal framework
- Perform basic restorative skills

## **Topical Description**

A	Weekly written assignment includes completion of: Patient Database
B	In addition, the following documents are to be updated and submitted each week: <ul style="list-style-type: none"> <li>• Clinical Nursing Skills Checklist</li> <li>• Record of Clinical Hours</li> </ul>
C	Weekly clinical paperwork is to be submitted in a pocket folder on the day and time specified by the Clinical Instructor.
D	The Instructor may refuse to accept any clinical paperwork that is late, incomplete or illegible. The student will be given a grade of "1" for the written assignment and placed on a Clinical Remediation Plan until the paperwork is submitted to satisfaction.

- The Clinical Evaluation Tool will be used to document the student's progress in meeting the course objectives, to provide rationale for the assigned grade, and to identify student's strengths and areas needing improvement.
- Success in meeting the course objectives is determined by the student's performance in the clinical setting and completion of written assignments.
- The student must earn an average rating of "3" (C) or better for each of the course objectives and for written assignments over the total clinical grading period to pass the course. If the student fails to earn an average rating of "3" (C) or better for each of the course objectives and for written assignments, a final course grade of "F" will be assigned.
- If the student earns an average rating of "3" (C) or better for each of the course objectives and for written assignments, the final grade will be calculated based on an average of the weekly grades for all course objectives and written assignments.

## **Note to Instructors**

1. Clinical material is located on the J: drive under Practical Nursing, NUR 90.
