Course Outcomes

At the completion of this course, the student should be able to:

Differentiate between various forms of non-corporate business entities by discussing advantages and disadvantages of each.

Compare and contrast the personal liability and taxation implications of various forms of business ownership by analyzing real-world scenarios typically found in business.

Determine the most appropriate form of business ownership for a client when given a set of facts detailing the client's personal situation and business plan.

Complete the steps necessary to incorporate a small business, along with corresponding documents and required filings, when given facts detailing the business client's requirements.

LGL 235 Business Organizations
