PHI 101

Introduction to Philosophy I

COURSE OUTLINE

Prerequisites: None

Course Description:

Introduces a broad spectrum of philosophical problems and perspectives with an emphasis on the systematic questioning of basic assumptions about meaning, knowledge, reality, and values. Part I of II.

As an introductory course, it provides a general overview of how major philosophers have addressed these principal problems and it seeks to assess their consequences. The course also incorporates critical thinking skills that enable the development, or better understanding, of one's personal philosophy (worldview).

Semester Credits: 3 Lecture Hours: 3

PHI 101: Introduction to Philosophy I

Course Outcomes:

At the completion of this course, the student should be able to:

- Be conversant with and understand key philosophical terms and concepts
- Learn to think more analytically, critically and logically
- Gain a basic understanding of the major fields of philosophy: metaphysics, epistemology, ethics and logic.
- Gain a basic understanding of the relationship between philosophy and other academic disciplines: science, politics, religion, art, etc.
- Develop a foundational knowledge of the major recognized philosophers—ancient to modern—and their proposed approaches to the problems and issues of philosophy
- Interact with the most basic questions and issues of life
- Learn to evaluate the consequences of ideas and discern their impact on life and culture
- Develop, or come to understand more deeply, one's own philosophy of life (or worldview) and be able to articulate it
