

Virginia Western Community College
ACC 261
Principles of Federal Taxation

Prerequisites

MTE 1, 2, 3

Course Description

Presents the study of federal taxation as it relates to individuals and related entities. Includes tax planning, compliance and reporting.

Semester Credits: 3 Lecture Hours: 3 Lab/Clinical/Internship Hours: 0

Required Materials**Textbook:**

Fundamentals of Taxation, 2018, by Cruz. (11th Edition) Published by McGraw-Hill.

Other Required Materials:

Tax Act

The following supplementary materials are available:

1. IRS Publication 17 – Tax Guide 2016 for Individuals
2. IRS 2016 1040 Instructions

Course Outcomes**At the completion of this course, the student should be able to:**

1. Understand progressive, proportional and regressive tax structures.
2. Understand marginal and average tax rates and simple income tax formula.
3. Understand the components of Form 1040EZ and when its use is appropriate.
4. Understand types of tax authority and how they interrelate.
5. Determine proper filing status and calculate personal exemptions.
6. Calculate dependency exemptions and determine standard deductions.
7. Understand IRS interest and penalties.
8. Describe when and how income is subject to taxation.
9. Explain the components of gross income (e.g. wages, interest, dividends, etc.)

10. Apply rules for exclusion of income from taxation.
11. Understand tax rules for student loan interest and moving expenses.
12. Explain and discuss taxation issues associated with self-employment.
13. Calculate deduction for eligible tuition and fees.
14. Describe and apply the deductibility of: medical expenses, state taxes, interest expense, charitable contributions, casualty losses, and deduction limitations.
15. Describe, explain and apply the concepts of self employed income and deductions.
16. Calculate and apply gains and losses associated with the sale of property.
17. Understand income and expenses related to rental property and royalties.
18. Apply the tax rules related to tax credits (e.g. child, education, earned income, etc.).

Conceptual and analytical objectives are listed at the beginning of each chapter. These learning objectives provide a framework (mental and visual) to direct the learning process. Real-world businesses and accounting practices will be integrated into the material to promote interest and enhance mastery and competence of the subject being discussed.
