Course Outcomes

At the completion of this course, the student should be able to:

- Explain the historical contributions and legal bases that form the foundation of early childhood special education.
- Describe typical developmental characteristics of young children and identify situations or events that may be considered risk factors for developmental delays or atypical development.
- Consider physical, cognitive, social, and emotional differences among young children when planning an appropriate individualized curriculum.
- Select age and stage appropriate materials, activities and environments for young children with diverse needs and demonstrate strategies for adapting toys, materials, and learning environments.
- Identify various agencies providing early intervention and support for families with children having or at risk for special needs.
- Explore the range of positive guidance strategies appropriate for use with young children with diverse needs.
- Utilize effective techniques for communicating and collaborating with families of children with special needs.
- Identify and apply learning standards as they relate to exceptional children: the Virginia Foundation Blocks, the Child Development Milestones, the Virginia Standards of Learning, and Core Competencies for Early Childhood Professionals.

Topical Description

1	Legal requirements for serving the needs of children with special needs and their families
2	Options for placement and services within the community
3	Resources for adapting environments to meet special needs
4	Various professional pathways for careers in early childhood special education

Notes to Instructors

1. For the Portfolio, students must submit a **Parent Letter Assignment/No Reflection**
