

VIRGINIA WESTERN COMMUNITY COLLEGE

COURSE OUTLINE

SDV 101 Orientation to Health Professions

Fall Semester 2024

Prerequisites

None

Course Description

Introduces students to the skills that are necessary to achieve their academic goals, to services offered at the college and to the discipline in which they are enrolled. Covers topics such as services at the college including the learning resources center; counseling, and advising; listening, test taking, and study skills; and topical areas that are applicable to their particular discipline. Introduces students to careers in health professions, career pathways and industry credentials.

This course will assist students in establishing a connection with the college using a small group format to acquaint students with other students. The course introduces students to the academic, personal and social skills necessary to achieve their academic goals, to services offered at the college and to the discipline in which they are enrolled. It covers topics such as goal setting, academic advising, listening, discipline specific writing skills, information literacy, academic honesty and topical areas that are applicable to their particular discipline. Explores transfer options for achieving academic goals.

Semester Credits: 2

Lecture Hours: 2 per week
